

Scatola a cerniera ESD FTB MC, 136x87x55 mm

The ESD hinge box FTB MC in black is a high-quality product made of polypropylene that has been specially developed for the safe protection of sensitive electronic components. With an internal length of 130 mm, an internal width of 80 mm and a usable internal height of 50 mm, this hinge box offers sufficient space for various components. The side walls are closed and the base is flat, which ensures additional protection. Thanks to its ESD protection properties, the product is conductive and provides reliable shielding against electrostatic discharges. The hinge box is also resistant to chemicals and can be used at temperatures of up to +100°C. With a 5-year guarantee against material fatigue, you can rely on the durability of this product. Ideal for use in demanding environments where electronic components need to be stored safely.
