Scarpa allacciata di sicurezza ESD blu 48

At ATLAS®, only the best quality cowhides are processed. Extremely careful selection ensures that only flawless, high-quality and soft leathers are used. The ATLAS SOFT nubuck leather has to withstand special challenges throughout the entire working day. The approx. 2mm thick full-grain cowhide leather is particularly characterised by its breathability and soft, comfortable feel.

ATLAS® brings together state-of-the-art technologies and the anatomical needs of every wearer. The new INNOFLEX SYSTEM® is a holistic running sole concept and supports the runner in every phase of movement. From the first to the last contact with the ground, the sole complex is permanently guided by the same, natural line of force, the INNOFLEX LINE. It optimally guides the forces from the heel to the toe and thus supports the natural line of force progression. Special areas such as the CLOUDZONE in the heel are responsible for the corresponding energy absorption, i.e. cushioning. The large-format tread surfaces, which are equipped with particularly energy-absorbing MPU® material, absorb the energy and return it to the movement process in a targeted manner. This

guarantees fatigue-free walking throughout the entire working day.

Alu-tec® technology: The new lightness. Aluminium has not only served as a high-tech material in aviation and the automotive industry for years, but also in many ATLAS safety shoes today. The anatomically shaped aluminium toe cap is particularly light and shifts the centre of gravity of the shoe to the middle of the foot. This actively helps to prevent tripping accidents caused by imbalance. The thermally neutral behaviour of aluminium also prevents cold bridges from forming inside the shoe and thus guarantees a pleasant foot climate in all seasons.

Especially when kneeling, wear and tear can occur in the area of the shoe toe after some time. These can be significantly reduced with the help of the abrasion-resistant MPU toe protector and the service life of the shoe is thus increased.

Particularly in everyday working life, with high physical stress, temperature-regulating properties are not only required, but expected. The aktiv-X functional lining stands for the highest quality, innovative technology and offers the wearer permanent, active moisture regulation. The aktiv-X functional lining regulates moisture and ensures that the shoes dry again quickly. It does not stain, is skin-friendly and abrasion-resistant.

Work healthier with the right cushioning. The new 3D cushioning system from ATLAS® enables noticeably gentle and fatigue-free walking. The basis for this outstanding walking comfort is formed by three basic components: Pressure relief. Cushioning. Dynamics. This is ensured by the perfect interaction of a pressure-relieving insole and the light and responsive MPU sole technology.

geeignet für die Einlagenversorgung-DGUV 112-191

ATLAS® offers you a wide range of different orthopaedic insoles. The articles marked here are suitable for orthopaedic insoles according to DGUV regulation 112-191. The marking on the shoe is decisive for this.
• EN ISO 20345 S1 SRC
• ESD (resistenza alle perdite <35 megaohm)
• adatto per l'alimentazione da sottopiede (DGUV 112-191/BGR 191)
• Larghezza standard W10, ma disponibile anche in W12 (extra largo)

Articolo n.	**WL41684**
Modello	SL 80 blue 2.0 ESD
Linea di modelli	SL 80 blue 2.0 ESD
Produttore	ATLAS
Codice articolo del produttore	44700-48

Dati del produttore GPSR	ATLAS-Schuhfabrik GmbH & Co.KG Frische Luft 159 DE-44319 Dortmund www.atlasschuhe.de
Lunghezza con imballaggio	350 mm
Larghezza con imballaggio	250 mm
Altezza con imballaggio	150 mm
Unità di vendita	1 Paio
Unità di contenuto	1 Paio
Informazioni sul colore del produttore	black / royal blue
Colore	Blu, Nero
Materiale	SOFT nubuck leather
Cappuccio protettivo	si
Tipo di scarpe	Scarpa Di Sicurezza
Classe di sicurezza	S2
Suola della scarpa	MPU INNOFLEX system
Resistenza allo scivolamento	SRC
Larghezza della scarpa	W10 (larghezza standard)
Caratteristiche (scarpe)	• tappo in alluminio alu-tec • Sistema di smorzamento 3D • Riflettori di sicurezza • attivo-X Mandrino di funzione • concetto di clima-stream • protezione della punta rinforzata con fibra di carbonio • Tecnologia della suola MPU® Light
Materiale (scarpe)	Pelle Nabuk
Misura delle scarpe UE	48
Conforme alle ESD	Si
Categoria di rischio (regolamento DPI)	Categoria 2
