

W 101, saldatore per tensione di rete MAGNASTAT, 100 W (UK)

The Weller Magnastat system operates through a ferro-magnetic sensing device which changes its characteristics when specific temperatures are reached. This causes it to either attract or repel a permanent magnet which operates a power supply switch. In this way power to the heating element can be quickly switched on or off to either provide extra power for soldering operations or reduce power when idling. Various pre-selected tip temperatures are available to permit different types of soldering to be undertaken.

Working temperature selection is achieved by simply changing the "temperature sensing" soldering tip. These are available in temperature ratings of 260°C, 310°C, 370°C, 425°C and 480°C.

- 100 W, 230 V
- Completo di punta Saldante CT6E7 e appoggio di sicurezza
- Magnastat Series
- with soldering tip CT6-E7 and shelf angle
- UK plug

Articolo n.	WL63500
Modello	W 101 (UK)
Produttore	WELLER
Codice articolo del produttore	T0056104399N
Dati del produttore GPSR	WELLER Tools GmbH Carl-Benz-Strasse 2 DE-74354 Besigheim www.weller.eu
Unità di vendita	1 Pezzo
Unità di contenuto	1 Pezzo
Energia	100 W
Manipolo (tipo)	Saldatore A Rete
Supporto coordinato	KH 6
Suggerimenti per l'abbinamento	CT6
Punta di saldatura inclusa	CT6 E7
