

Chwytnak IC na 24-28 pinów

The Weller IC gripper for 24-28 pins is a precise tool specially developed for the safe handling of integrated circuits. It enables reliable removal and placement of ICs without damaging the sensitive components. The gripper is ideal for applications where the soldering iron is used at a distance of up to 2.5 m from the pipe system 50. This ensures flexible and efficient operation in demanding soldering environments.
