Przyssawka do AM6000/6500/6800, JT7000/7700, TE5000/5400, AM-2A/JT-2A/TE-2A

The suction cup for JBC hot air stations with a diameter of 4.7 mm is an indispensable accessory for precise soldering work. It enables components to be lifted and placed on circuit boards safely and efficiently. The suction cup is specially designed for use with JBC hot air stations and ensures optimum compatibility and performance. Thanks to its robust design, it offers a long service life and reliable functionality. Ideal for professional users who value quality and precision. Available at Weidinger.eu.
